Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior arts fails to disclose establishing a node as a nominal root node, the nominal root node being a node with a right to transmit a packet on a bus; and dynamically changing the nominal root node responsive to a change in right to transmit on the bus as states in the response filed on 7/25/05.

Regarding claim 2, the prior arts fails to disclose apparatus comprising a first port; and a physical layer (PHY) coupled to the first port that encodes a last packet of a sub-action for transmission on a serial bus, the PHY arbitrating a next access to the serial bus and attaching a grant token to the last packet of the sub-action to be transmitted out a highest priority port as states in the response filed on 7/25/05.

Regarding claim 3, the prior arts fails to disclose system comprising: a full duplex serial bus; and a plurality of nodes coupled together in a tree topology by the serial bus wherein a node transmitting a current packet is a nominal root node of the tree topology and wherein each other node repeatedly transmits current arbitration information toward the nominal root node as states in the response filed on 7/25/05.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
